The Michigan Association of Railroad Passengers, Inc. (MARP) is a 501 (c)(3) non-profit corporation established in 1973 to improve passenger train service, travel conditions for passengers, and to work for the preservation of historic rail stations.

Monthly meetings are held at locations around the state. Check the website for dates and venues. Everyone is welcome.

MARP EXECUTIVE COMMITTEE
2011-2012
Robert Tischbein Chair
Vacant Vice-Chair
Dave Randall Treasurer
Hugh Gurney Secretary
John Langdon Governmental/Public Affairs Coordinator
Kathleen Newell Membership Coordinator
Kay Chase Communications Coordinator
Jim Wallington Meetings Coordinator
Don Monteith Northern Region Chair
Jim Hinkins Detroit/Metro Region Chair
John Langdon Acting West Region Chair
Jim Wallington Acting East/Central Region Chair

The Michigan Passenger Editor and Webmaster, Larry Sobczak
ON TRACK Editor, Kay Chase

2012 MEETINGS
14 January – Williamston Depot-Museum
11 February – Old Dog Tavern, Kalamazoo
17 March – New Pontiac Station
21 April – Chelsea Depot
12 May – National Train Day
16 June – Muskegon Union Station
28 July – RAPID Central Station, Grand Rapids
August – Executive Committee Retreat
September 15 – Annual Meeting at Durand Union Station
13 October – Pere Marquette Station, St. Louis MI
10 November – Michigan Central Station, Essex, Ontario

Promontory Summit, May 10, 1869
Golden Spike is Driven!
The Central Pacific and Union Pacific Railroads Are Joined
To Form The Nation’s First Transcontinental Railroad

Yesterday, May 10th, at high noon, the last rail was laid and spiked, connecting the Union and Central Pacific railroads. It was the completing of an enterprise fraught with more interest than the tunneling of Mount Cenis or connecting the Red and Mediterranean seas by the Suez Canal. Exchanges and telegrams inform us that on the Pacific and Atlantic coasts it was to be celebrated with becoming ceremonies and popular demonstrations, while from down in the deserts of Utah, we have rumors of gold spikes, and silver spikes, diamond eyes, ruby lips, alabaster necks, sparkling vintage wit, sentiment, and what-not, that graced the occasion and fastened the rail.

Success to the great enterprise and a volunteer toast from Montana.

-- Montana Post, Helena, May 14, 1869

A thousand throbbing hearts impulsively beat to the motion of the trains as the front locomotive of each company led on majestically up to the very verge of the narrow break between the lines, where, in a few moments, was to be consummated the nuptial rites uniting the gorgeous east and the imperial west of America, with the indissoluble seal of inter-oceanic commerce.

-- Deseret News, Salt Lake City, May 19, 1869

Fifth Annual Celebration
NATIONAL TRAIN DAY
May 12, 2012

The biggest little event in the Midwest will take place a week earlier on May 5 at the Toledo Amtrak station where, among a host of activities, you will have another chance to tour Amtrak’s 40th Anniversary Train. For details visit tinyurl.com/marp00040

On May 12, Train Day events will be held at various locations around Michigan, including Flint, Kalamazoo, Niles, Holland, Jackson and Bangor. Visit the website NationalTrainDay.com for details of these and other events around the nation.
On April 21, MARP met at the well maintained 1880 Chelsea Depot, where we were welcomed by members of the Chelsea Depot Association. Chelsea railroad historian Robert D. Shannon gave an excellent presentation on the history of the Michigan Central Railroad and the evolution of railroad service in Chelsea. Shannon showed a blown up photo of Michigan Central’s *Mercury* taking on water on the run from a water trough just east of Chelsea. The *Mercury* made the trip from Detroit to Chicago in four hours during the 1940’s.

The present depot is the third to serve Chelsea. In the 1890’s, eight trains a day stopped there. Fortunately, the Chelsea Depot Association saved the structure from demolition by Conrail in the 1970’s. Most funding for upkeep of the depot comes from rentals for wedding receptions, banquets and other functions.

Michigan will be receiving twenty new bi-level coaches out of a total order of 130 cars. The coaches will be similar to ones currently in use in California. The contract should be awarded in October, with the first of the new cars arriving in 2015. New locomotives are also scheduled for delivery in 2015.

The Michigan Senate is expected to take up legislation in the next week to establish a Regional Transportation Authority for the counties of Wayne, Washtenaw, Oakland, and Macomb.

The Surface Transportation Board has received a petition from MDOT for acquisition of the Dearborn-Kalamazoo stretch of the Norfolk Southern sometime between April 30 and May 31. The Wayne Yard and the Willow Run Yard are excluded from the acquisition.

The SS Badger, which provides ferry service between Ludington, Michigan, and Manitowoc, Wisconsin, may be shut down at the end of December, 2012, because it continues to dump toxic coal ash into Lake Michigan. The vessel was constructed by the Chesapeake and Ohio Railroad as a railroad car ferry between Ludington and several points on the western shores of Lake Michigan. Plans are in the works for conversion of the ship to natural gas, but that is expensive and will take time. A committee including Monteith, Chase, Gurney and Larry Bean of the Chelsea Depot Association will review the most suitable response for MARP.

Despite the withdrawal of the University of Michigan from the Fuller Road Transportation Center project, the City of Ann Arbor plans to confirm a contract for design of a station at that location near the University of Michigan Medical Center in the very near future. Work is underway on the new Grand Rapids Amtrak station. Westrain plans to involve Chambers of Commerce, Convention and Visitor Bureaus and municipal leaders in its promotion of a second *Pere Marquette* frequency.

Repair of last year’s water damage to the Durand Union Station is now complete.

MARP will have a table at the large National Train Day event in Toledo on May 5. National Train Day observances are planned at a number of stations in Michigan on May 12.

The next meeting is scheduled at the historic Muskegon Railroad Depot at 10:00 a.m. on Saturday, June 16.

---

**MARP Members Invited to Meeting of Operation Lifesaver**

Michigan Operation Lifesaver’s next quarterly meeting is scheduled for May 11, 2012 at 9:30am, at the historic Durand Union Station. A luncheon hosted by the Michigan Railroads Association follows the morning business session. The afternoon session always features an interesting speaker. Please RSVP to Sam Crowl, State Coordinator-MIOL samcrownl@comcast.net.

MI-OL also invites you to visit their booth during the celebration “Day Out With Thomas at the Henry Ford Museum” which is continuing the weekends of May 5-6 and 12-13. See page 3 for more about the visit of Thomas the Tank Engine™ to Greenfield Village.

**NOMINATIONS SOUGHT**

MARP will name new officers at the annual meeting in September. In addition to Chair, Vice-Chair, and Secretary, there are 4 At-Large Positions (responsible for membership, meetings, communications, and governmental affairs, respectively) and 4 Regional Chair Positions. In addition, MARP is looking for someone to fill the position of our long-time Treasurer, Dave Randall, who is retiring and moving to Texas to care for aging parents. If you are interested in holding office or would like to nominate someone, please email MARP Chair Robert Tischbein rptischbein@juno.com or phone him at 586-726-9737.
The average annual number of vehicle miles traveled by young people (16 to 34-year-olds) in the U.S. decreased by 23 percent between 2001 and 2009.

The share of 14- to 34-year-olds without a driver’s license increased by 5 percentage points, rising from 21 percent in 2000 to 26 percent in 2010, according to the Federal Highway Administration.
**View from elsewhere . . .**

A balanced national transportation system requires high-speed rail lines that connect the nation's major cities. With gas prices soaring, people are driving less and looking for less stressful alternatives to congested freeways and airports. The federal government must continue to help metropolitan areas build and maintain transit systems -- including trains -- that reduce congestion, get people to jobs, improve air quality and conserve energy.

Secretary of Transportation Joseph Szabo, in Michigan to break ground on the new Dearborn station, said that he expects nearly 80% of the Detroit-Chicago line to run at sustained speeds of 110 m.p.h. by 2015, reducing one-way travel time by nearly two hours. Ridership on the Chicago-St. Louis line, for example, has more than doubled in five years. "It's happening with service that is not yet stellar," Szabo said, adding that with improved reliability and speed "ridership is just going to explode." For that to happen, though, customer service and reliability must get better. Fast trains won't help much if they don't leave the station on time.

-- Detroit Free Press Editorial, 17 April 2012
